Dr. B.C. Das, Cuttak

**National Seminar
On
Role of ICT in Higher
Education**

23rd-24th February, 2019

**Organized By:
Vivek College of Education
Moradabad Road Post AgriBijnor
(UP) 246701
NAAC B++' Accredited**

About the Seminar

Information and Communication Technology plays an important role in all the aspects of life. ICT is an abbreviated form of Information and Communication Technology. The use of ICT has rapidly grown in past 20 years in all the fields. As the world is moving rapidly into the digital media, the role of ICT in higher education is also gaining much attention. This growing importance and attention of ICT's will continue to grow and develop in the 21st century. ICT is a major way to enhance and transform the higher education teaching and learning system and environment which makes the work more productive and meaningful. It helps in keeping contact between the people (Teacher and Student) by e-mail, e-learning, TV, Audio- Visual aid, CD ROM etc. Now a days, education is actually a very socially oriented activity and we can achieve quality education with the strong teachers who have high degrees of personal contact with the learners. We can say that ICT has become an important part of today's TEACHING LEARNING PROCESS. If we use it in a proper manner it not only motivate students, makes the classes more dynamic and interesting but also helps the teacher in learning new skills and techniques. In Education, ICT improves class room teaching learning process and also provides the facility of e-learning. The proper use of ICT not only enhances learning environment but also prepares the coming generation for better lives and better careers.

We can probably understand it in a better way by bringing certain lines of Dr. Baba Saheb Ambedkar in which he considered a University as MACHINERY. According to him, the University is a machinery where education facilities are provided to the people who we can say are "Intellectually Capable" of using those facilities in the best possible way but on the other hand there are certain people who can not avail themselves of those facilities for the want of funds or may be because of other handicaps in life. What Dr. Ambedkar meant by those lines is very unambiguous. For him the person who really want to avail the facilities for learning new things will always be a learner and can do good progress in life but the people who are already stuck in the different barriers can never be a learner and hence can never use the facilities effectively and efficiently. The proper use of ICT's can make good changes both for Teaching and Training in Higher Education in two ways- Firstly, the rich representation of information always changes the perception of the learner and also helps in better understanding of the context. Secondly, the extensive distribution and easy process of information can change the relationships between teachers and taught. In the last few decades, we have seen an increasing number of youngsters who gained access to Higher Education.

About the Institution

Vivek College of Education has been set up under the aegis of "Shivika Educational Society" and has been recognized by National council for Teacher Education (NCTE) Jaipur and affiliated to MJP Rohilkhand University Bareilly. The College has acquired 'B++' by National Assesment and Accreditation council (NAAC). The institute provides excellent, ambience and academic setting which is in harmony with nature.

About the Place:

Bijnor, occupies the north-west corner of the Moradabad Division and is a roughly triangular stretch of country with its apex to the north. The western boundary is formed though out by the deep stream of the river ganga, beyond which lie the four districts of Dehradun, Saharanpur, Muzaffarnagar and Meerut. It is just 140 km away from Indira Gandhi International Airport, New Delhi and is well connected with all important towns of the state by road and rail services. The college is located on Bijnor-Moradabad Road, also known as Noorpur Road. To reach Bijnor from Delhi roadways busses & taxi may be taken from ISBT, Kashmiri Gate, New Delhi.

Accommodation:

For out station participants, accommodation will be arranged with extra charges borne by the participants. No TA, DA will be paid for attending the conference. Accommodation facility is only for those who will confirm their participation in advance.

Sub Themes

- ▶ Role of Online learning i.e swayam
- ▶ Role of e- library.
- ▶ Impact of learning management system.
- ▶ Benefits of cloud learning.
- ▶ Influence of virtual classes and virtual labs.
- ▶ Importance of virtual universities for future aspects.
- ▶ Need of Artificial intelligence.
- ▶ Innovation s and best practices of ICT.
- ▶ Need of 3D classes in the enhancement of performance.
- ▶ Methods of evaluation and conduct online examination.
- ▶ Challenges through ICT learning process.
- ▶ Role of simulators in learning process.
- ▶ Needs of webinar in today's scenario.
- ▶ Issues of ICT.
- ▶ Role of plagiarism in quality research.
- ▶ Quality Enhancement by I.C.T.

Call for Papers

Papers and articles relevant to the topic are invited for presentation in the Seminar. The participants are requested to send their abstracts in not more than 200-250 words on before 10 February 2019 and full paper in Hindi or English via E-mail at vivekseminar2019@gmail.com in MS word format(font size 12 Arial Black in English and Font Size 14, KrutiDev 010 in Hindi) accompanied by registration fee. Only selected papers will be published in souvenir and full length paper will be published in seminar proceeding.

Important Dates:

Last Date for Abstract Submission:

10-02-2019

Last Date for Full Paper Submission:

15-02-2019

Registration Fee:

Delegates	:	Rs 500/-
Research Scholar	:	Rs 400/-
Students	:	Rs. 300/-

Feel Free to contact for accommodation paid at your own expense.

Address:

**Vivek College of Education
