**Problems:**

1) Distribution of kits by law department due to last minute registrations.

2) Tabulation was problematic.

3) Advertisement was not effective and late.

4) Teachers and volunteers could not be bifurcated from the crowd.

5) Timing of the run was not done.

6) Starting gate was not ready.

7) Lack of interest in the participants.

8) Lot of crowd at the finishing line.

9) Refreshment location was out of the way.

10) Distance boards were not there.

**Advantage:** People from the age group 40-50 participated in the marathon genuinely.

**Suggestions:**

1) Registrations should close one day before.

2) Chest number should be allotted in the order of registration.

3) Tabulation team increased to 4 and with do not disturb.

4) Gates having flex of sponsors on pipe frame with better design.

6) Identify volunteers and teachers with V & T chest number which is clearly visible.
7) Refreshments should be properly visible and indicators near finishing line.

8) More publicity and posters in schools, banks and colleges in city Bijnor only.

9) Distance bars on the routes.

10) Separate category for 40+

11) Timing of marathon allotted a team specially.
Department wise task bifurcation:
