# VALUE EDUCATION PROGRAMME

Value Education Programme is an initiative of **Vivek College of Education** to enhance general knowledge of students. It will make students aware about the day to day issues and topics of general concern. The dynamic society today demands an all-round knowledge among the youths of today. The programme will serve as a support system for the same. It will build zeal among students to gain information and share among each other. It will also act as a stage fear tackling mechanism when a student faces audience in bulk.

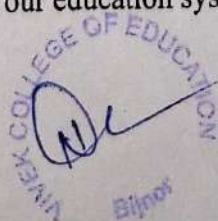

The "VEP" is a fancy term for self-expression of knowledge and it will help the students to build sound knowledge through play way technique.

## VALUE EDUCATION

Value education is a term used to name several things, and there is much academic controversy surrounding it. Some regard it as all aspects of the process by which teachers (and other adults) transmit values to pupils.

This means that value education can take place at home, as well as in schools, colleges, universities, offender institutions and voluntary youth organizations. There are two main approaches to value education. Some see it as inculcating or transmitting a set of values which often come from societal or religious rules or cultural ethics.

Others see it as a type of Socratic dialogue where people are gradually brought to their own realization of what is good behaviour for themselves and their community. Value education also leads to success. It has values of hard work, how nobody is useless and why we should incorporate moral values in our education system.

  
VIVEK COLLEGE OF EDUCATION  
Bijapur

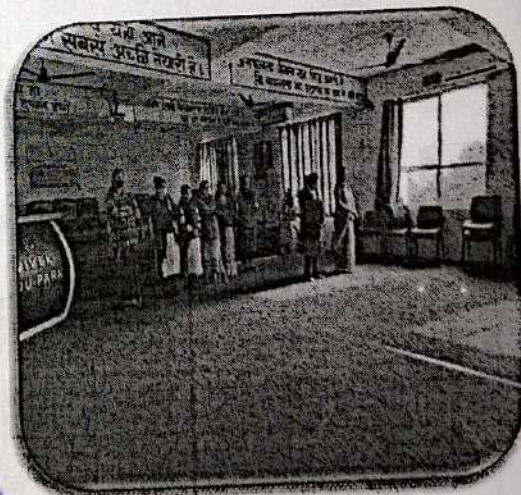

## OBJECTIVES OF VALUE EDUCATION

- To improve the integral growth of human beings.
- To impart manners and ethics and provide a push towards sustainable lifestyle.
- To increase awareness about our national history, our cultural heritage, constitutional rights, national integration, community development and environment.
- To create and develop awareness about the values and their significance and role.
- To know about various living and non-living organisms and their interaction with environment.

Value Education Program helps the student's imbibe the value that are on the decline these days. Our students, through informative PowerPoint presentations, fillers, short stories try to tell the bit about the values. Another topic chosen was Patriotism. Students went on quite well with the theme and drilled in the minds of others students what is the true meaning of patriotism and only it is the need of the hour.

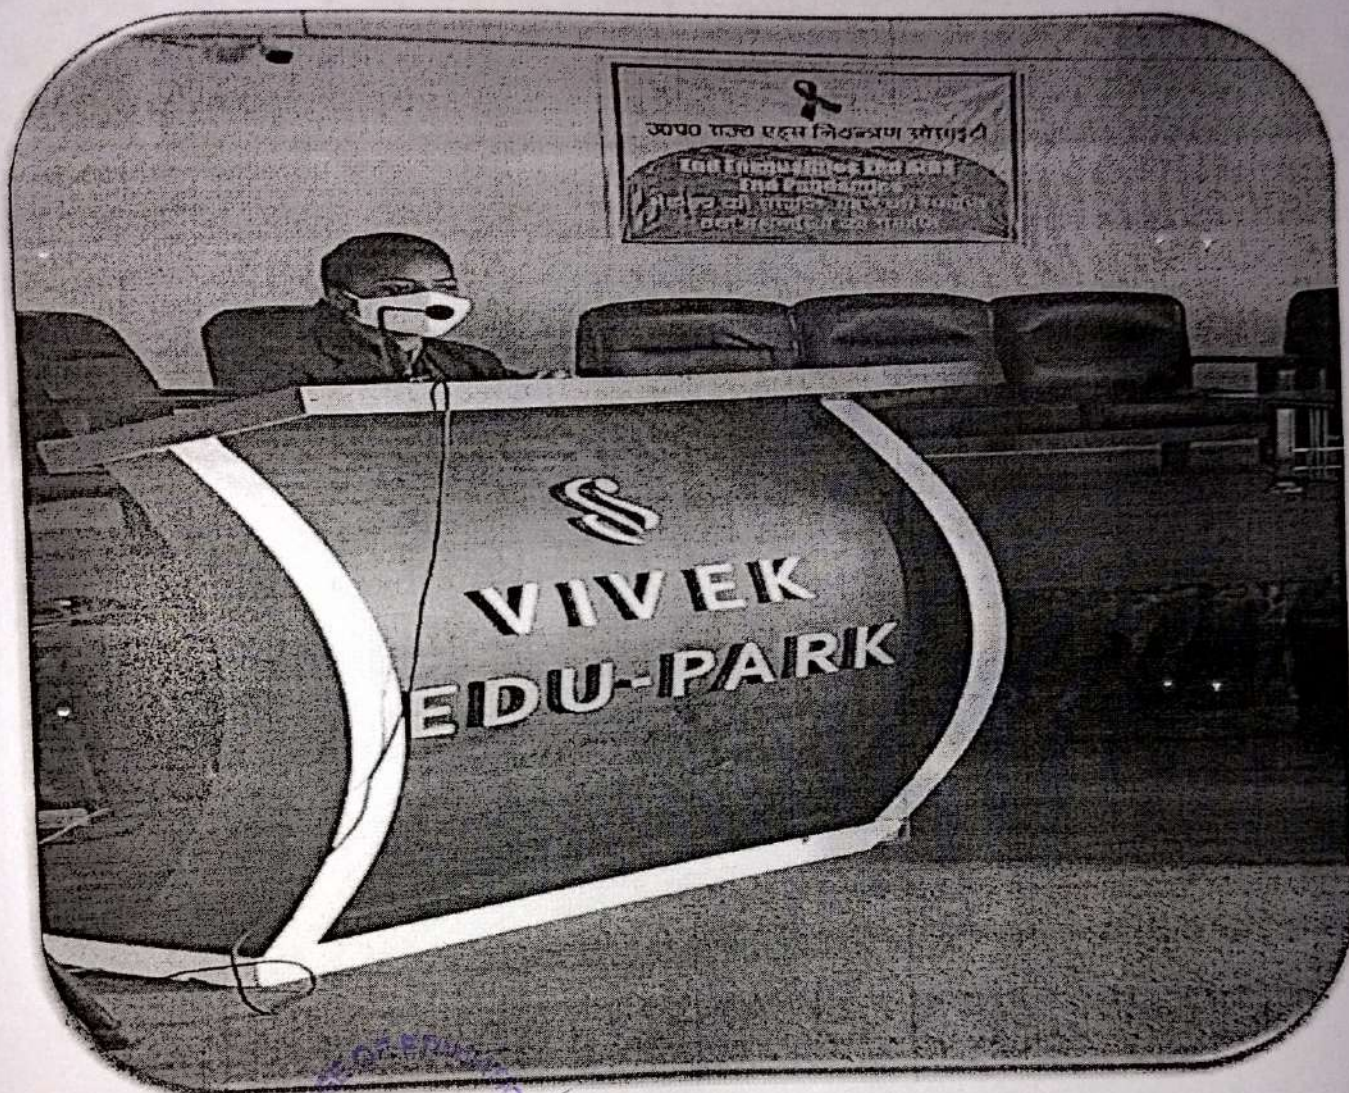

In the days of Brain - Drain when everyone is attracted to work for super power like America, it is important to install the feeling of patriotism in the hearts of the young couple. Constant narrations of inspiring tales of great patriots help in shaping the young minds and hearts. VEP representatives strive to guide the youth to become patriotic not only on 15th Aug and 26th January but to remain so throughout the year and work for the betterment of the country.

Kindness was another moral value that was taken up by the students. Apart from being an honest person, the representatives of VEP made a heart full request to be kind to others. They tried to explain to the rest that it is equally important to be kind to the other as it is to be to oneself. We often forget and forgive own mistakes but when others make mistakes we judge them and get harsh with them. The students tried hard to tell and teach the value of kindness, by telling them historical and mythical stories. All their narration pointed towards one thing that is "Be kind to others", because you never know that what is the battle the other is

fighting with'. Soft, polite words or deeds done to the other would also come a place for oneself in their heart. What goes around, comes around i.e. if you treat others with kindness, you would get the same in return.

Under the umbrella of Value Education Programme our students had some great thoughts to share with the entire Vivek family. They shed light upon what honesty is and also spoke about why it is important to be honest. The message delivered by our students contributed a great deal in letting others imbibe the virtue and honesty. They made a sincere appeal through their narration of poem, short stories, quotation and power point presentation to their fellow classmates to become an honest human and remain so throughout their entire life. This is little step towards the ethical education that Vivek College of Education aims to provide to the child. Honesty is a much demanded quality that helps in building firm and better human relationships. An honest person remains happy because he/she does not have to remember the

false or distorted facts and can lead a care free life, away from lies. This is what our students have imparted so far.

It is a great honour for the Home Science department to be a part of value education programme. Value education is a many-sided endeavour and in an activity during which young people are assisted by adults or older people in family, homes, clubs, religious, school, college and other organisations to underlying their own attitudes to assess the effectiveness of these values for their own long term well-being. Because of it any individual develops their abilities, attitudes and other forms of positive behaviour in the society.

VIVEK COLLEGE OF EDUCATION  
Bhopal

Importance of Teachers was another topic of value education programme in which our students share their beautiful thoughts in many forms like poem and quotations. Teachers' have a huge space in every individual life. According to them a teacher is an incredible opportunity and power to make a difference in our lives. In addition to teaching skills, Knowledge and literacy that will have a great impact in many student lives that they become skilled and learned adults who contribute to society. Other one share their thoughts regarding teachers importance by these lines that teachers are those important pillars of a students' life without whom life's journey would be a lot more difficult because right from our childhood till our college days and even beyond teachers guides us as to how we should move towards our goals. They teach us how to read and write and most importantly they prepare us for a world that is not easy to handle. Like our parents, our teachers too help us prepare ourselves to face the outside world.

In other way students' share their thoughts with few lines of poem,

"Jatinapoocho Guru ki,  
Pooch lijiyegyaan,

Mole nakroduniyaka,

Pdarhne do myaan.”

“Guru k binaspnakbhisakaarnhihota,

Shikshaka koi aakarnhihota,

Zindagimaisbkuchmiltahaiusey,

Jiskemunmai guru kasummankbhi km nhihota.”

Teachers have an important role in our lives’ they inspire us to dream and encourage us to strive hard to achieve our goals and all of this without a selfish motive.

“Guru bin gyaannaupjey,

Guru bin mileyna moksha;

Guru bin likheynastyako,

Guru bin miteynadosha.”

We should salute all the teachers who give their time and energy to make our lives a little more beautiful and a little more meaningful.

Date Saturday, February 18, 2022

Time 1:30 pm

Meeting Held: Staff Room

A meeting of faculty members was held on 18.02.22 in staff room of department of science. The following faculty members were present in this meeting.

Members Present:

Dr. Meena (HOD)

Dr. Nelofar Tanveer (Assistant Professor)

Mr. Ytender Kumar (Assistant Professor)

Mr. Saurabh Kumar (Assistant Professor)

Ms. Kashish Naseem (Assistant Professor)

Absent- None

Dr. S.K. Tyagi, Incharge of the Department of Science, addressed all faculty members. He discussed about the different courses and it was decided by members that an add-on course will organise in the department with following details:

**Name of the course:** Value-added course

**Title of the course:** Research Methodology

**Date of commencement:** 05 March 2022

**Number of students:** 100

**Operation of course:** 02 lecture per week

**Certification:** College level

**Coordinator:** Dr. Nelofar Tanveer

**Joint Coordinator:** Mr. Ytender Kumar

Dr. Meena highlighted the roles and responsibilities of individuals and the process of registration was decided.

Dr. Nelofar Tanveer was given the responsibility to design the expected outcomes and syllabus of the course.

Mr. Ytender Kumar was appointed as a joint-coordinator and he was assigned the duty of proper selection of students and registration process.

The syllabus of the course will be taught by Dr. Nelofar Tanveer, Mr. Ytender Kumar and Mr. Saurabh Kumar.

The technical issues will be handled by Mr. Saurabh and Ms. Kashish Naseem.

**Session-2021-2022**

### **Paper- Research Methodology**

#### **OBJECTIVES**

- To understand some basic concepts of research and its methodologies.
- Identify and discuss the issues and concept salient to the research process.
- Select and define appropriate research problem and parameter.
- Identifying and discuss the concepts and procedures of sampling, data collection, analysis and reporting.
- Write a research report and research proposals.

#### **Expected Outcomes**

- Understanding the foundation of interdisciplinary research.
- Helps in identifying research topics and setting up hypothesis.
- Understand the research design and methodology.
- Writing scientific reports/reviews/conference presentations.
- To develop disciplined thinking or a bent of mind to observe the field objectively.

Session-2021-2022

### Paper- Research Methodology

#### AIM & SCOPE

Research Methodology – is away to systematically solve a research problem. It is a science of studying how research is done scientifically. Essentially it is the procedure by which the researcher goes about their work of describing, evaluating and predicting phenomenon.

The study of research methodology gives the student the necessary training in gathering material and arranging or card-indexing them, participation in the field work when required and also training in techniques for the collection of data appropriate to particular problems, in the use of statistics, questionnaires and controlled experimentation and in recording evidence, sorting it out and interpreting it.

The course structure is designed in a way that the learning of Research Methodology can move from mugging up syndrome to fun-practical method, from memorizing to brainstorming, from clearing the examination to feedback learning, from knowledge transfer to knowledge creation, from competitive learning to collaborative learning.

In this scientific age, all of us are in many ways consumers of research results and we can use them intelligently provided we are able to judge the adequacy of the methods by which they have been obtained. The knowledge of methodology helps the consumer of research results to evaluate them and enables him to take rational decisions.

### **Session-2021-2022**

#### **Paper- Research Methodology**

#### **Syllabus**

### **UNIT-I RESEARCH FORMULATION AND DESIGN**

Motivation and objectives- Research methods vs. Methodology, Types of research- Descriptive vs. Analytical, Applied vs. Fundamental, Quantitative vs. Qualitative, Conceptual vs. Empirical, concept of applied and basic research processes, criteria of good research.

Defining and formulating the research problem, selecting the problem, necessity of defining the problem, importance of literature review, literature review, primary and secondary sources, searching the web, development of working hypothesis.

### **UNIT-II DATA COLLECTION AND ANALYSIS**

Accepts of method validation, observation and collection of data, methods of data collection, sampling methods, data processing and analysis strategies and tools, hypothesis testing.

### **UNIT-III STATISTICAL TECHNIQUES AND TOOLS**

Introduction of statistics, Functions, limitations, measure of central tendency, arithmetic mean, median, mode, standard deviation, co-efficient of variation, correlation, regression, multiple regressions

Sampling distribution, standard error, concept of point and interval estimation, level of significance, degree of freedom, analysis of variance, one way and two-way classified data-F test.

### **UNIT-IV INTERPRETATION AND REPORT WRITING**

Meaning of interpretation, Technique of interpretation, Precaution in interpretation, Significance of report writing, Report, oral presentation, mechanics of writing research report, layout of the research report, types of reports, precautions for writing research report, conclusions.

### Paper- Research Methodology Examination-2021-22

Time: Two Hours

MM: 50

#### Section – A

Attempt any five questions.

2X5=10

1. What is Central tendency?
2. Define Standard Deviation.
3. Define hypothesis.
4. Describe the Co-efficient of variance.
5. Define sampling.
6. What is Research problem?

#### Section – B

Attempt any four questions.

4X5=20

1. What are the primary and secondary sources of literature?
2. What is research methodology?
3. What do you mean by research design?
4. Explain objectives of research.
5. Describe relationship between research and scientific method

#### Section – C

20

Attempt any one questions.

1. What do you mean by scientific research? Discuss the characteristics of the scientific research.
2. Write short notes on
  - (a) Features of good research design
  - (b) Criteria for good research
